

ACKNOWLEDGEMENT

We give our high, respectful gratitude to our guide beloved lecturer **Prof. FAYAZ SHAIKH** Professor in Department of Computer Science and Engineering, who has been our source of inspiration. he has been especially enthusiastic in giving his opinions and critical reviews. We have learnt a lot throughout this semester with many challenges yet valuable experience in order to complete this task. We will remember his contribution forever.

We sincerely thank **Prof. Raghavendra Hegde** A Head of the Department, Computer Science and Engineering, who has been the constant driving force behind the completion of project. We thank our beloved Principal **Dr. Ravindra D G.** for his constant help and support throughout. Our special thanks to Faculty members who have supported us in making this project a successful one.

We also take this opportunity to thank the technician staffs who have helped us a lot in providing the software and any kind of help whenever needed. My thanks and appreciations also goes to my friends who have willingly help us with their ability.
